

## **ATTACHMENT 7: SCHEDULE**

The schedule is included as **Attachment 7.1**. Based on the tasks described in the Project Work Plan, the project schedule for the completion of all tasks is expected to have a 17-month duration. In order to meet grant schedule requirements, the project is assumed to begin in April 2013 and be completed in August 2014. The timeline follows approximate timelines used in previous projects including similar types of work. The timeline provides adequate time to complete each task. No delays are expected. The project schedule includes the approximate dates of completion of the following:

- **Task 1** – Data Review and Modeling (April 2013 - May 2014) (TM June/Aug. 2014)
- **Task 2** - Monitoring Well Siting and Design (April/May 2013)
- **Task 3** - Environmental Compliance and Permitting (May 2013/June 2013)
- **Task 4** - Well Drilling/Well Construction/Development/Instrumentation (Aug. /Sep. 2013)
- **Task 5** - Monitoring Well Data Transmittal (Dec. 2013/Feb. 2014)
- **Task 6** - Project Management/Coordination and *QA/QC* (April 2013/Aug. 2014)
